Open-boundary Schrödinger grid
transmission
incident energy (eV)
exact
FD: N = 20
FD: N = 80
Self-consistent space-charge field
reduced field ε/(V/L)
reduced position x/L
constant μ
constant v_s
analytic limits
Finite-difference current laws
current density (A m^-2)
voltage (V)
analytic V^2
FD constant μ
analytic V
FD constant v_s
